

# OUTPACE THE COMPETITION

## Simplest system on the market:

- ✓ Fully wireless with SmartSwitch autosense
- ✓ Advanced software with Scatter Reduction Technology
- ✓ Equine-specific defined protocols and quick processing with images in a few seconds
- ✓ Refine+ provides an ultra-clear, realistic representation of structures
- ✓ Waterproof detectors with on-board storage available

## Configured with FujiFilm digital detectors for superb images and the reliability of industry leading, name brand equipment.

With a focus on portability and productivity, Stalo has streamlined the approach to equine radiography with its lightweight control station, equine specific exam auto-sequence software, fully wireless detectors and automatic syncing to PACS and Cloud. Your radiography workflow will be more efficient than ever.

**With Stalo, you buy it, you own it.** Unlike many of our competitors, we have zero mandatory ongoing fees and maintenance costs.

- ✓ **Extremely reliable:** Over 99% uptime rating.
- ✓ **Legendary service and reliability**
- ✓ **Minimal downtime:** 24/7 tech support with loaner panels available if repair is needed.
- ✓ **You own the software:** with many competing systems you are actually renting the software with fees for upgrading and selling.
- ✓ **Full on-site training and installation**

### A SEAMLESS USER EXPERIENCE

Stalo's three step, optimized workflow allows for fast and efficient acquisition.

## CONTROL STATION OPTIONS

### MICROLITE

Touch screen laptop  
Under 16lbs.  
Storage for C24ES detector

### ROLLING STAND

Touch screen interface  
Sturdy steel stand  
Storage for detector

## DIGITAL DETECTOR OPTIONS

**ONLY THE BEST:** Stalo is configured with detectors from **FUJIFILM**

Completely re-engineered for higher performance in every way, the FujiFilm D-EVO II is a rugged and lightweight detector that is designed to stand up to the harsh equine environment.

With a rigid and lightweight magnesium alloy chassis, an IPX-6 water resistance rating, and FujiFilm's exclusive antibacterial nano-coating, the D-EVO II has enhanced durability to accompany its superior image quality.

Patented Irradiation Side Sampling Technology for sharper images.

SmartSwitch Technology enables automatic X-ray detection.

On-board Storage and IPX6 Water Resistant.

**FUJIFILM D-EVO II C24ES**  
10" X 12" WIRELESS DETECTOR

**FUJIFILM D-EVO II G35ES**  
14" X 17" WIRELESS DETECTOR
